

SIDDHARAJ SINH CHAUHAN

Full-Stack Software Engineer • React.js • TypeScript • Next.js • Node.js

Ahmedabad, India • +91 83200 32657 • siddharajkc294000@gmail.com • linkedin.com/in/siddharajsinh-chauhan-410741199

Remote • available during US Eastern and UK working hours • open to full-time (direct or via EOR) and contract roles

SUMMARY

Full-stack software engineer with 4+ years of experience building web applications with React.js, TypeScript, Next.js and Node.js. Backend work in Node.js/Express, Python/FastAPI and ASP.NET Core, including payment (Stripe, Authorize.net) and identity verification (ID.me) integrations for US and UK clients. Currently Lead Software Engineer at a US company, responsible for technical architecture, delivery and code review.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Python, FastAPI, ASP.NET Core, ASP.NET MVC, C#, Entity Framework

Databases: PostgreSQL, Microsoft SQL Server, MongoDB

Integrations: Stripe, Authorize.net, ID.me, Google Maps Places API, authentication

Tools: Git, GitHub, Docker, AWS, CI/CD, Jest

EXPERIENCE

Lead Software Engineer

Jul 2026 – Present

FlatFour Ventures • USA • Remote

- Own delivery of full-stack web applications built with React.js, TypeScript, Next.js and Node.js, from technical architecture through release.
- Design and build backend services and REST APIs, integrating third-party services, payment gateways and authentication.
- Review code and set engineering standards for the team; mentor other engineers.
- Work directly with clients and stakeholders to define requirements, scope solutions and keep delivery on schedule.

Web Developer

Apr 2022 – Jun 2026

ZealousWeb Technologies Pvt. Ltd. • Ahmedabad, India

- Built and maintained full-stack web applications for client projects using React.js, TypeScript, Next.js and Node.js, with backend work in Python/FastAPI and ASP.NET Core.
- Led third-party integrations including Stripe and Authorize.net payment processing and ID.me identity verification, delivering secure checkout and user-verification flows.
- Built dynamic address forms with the Google Maps Places API and improved the autofill logic, which improved address accuracy and checkout UX.
- Split form components into reusable modules and introduced Redux for state management; reduced bundle size and added lazy loading to improve page-load times.
- Worked with designers and backend engineers in Agile sprints. Received the company WOW Award (May 2023) and was nominated for Employee of the Year (2025).

Trainee

Nov 2021 – Mar 2022

Aark Inosoft • Ahmedabad, India

- Built responsive client websites with HTML5, CSS3, JavaScript and jQuery, and supported senior developers on ASP.NET Web Forms/MVC backends (C#, SQL Server), including QA testing and bug fixing.

PROJECTS

MightyMeals — meal delivery platform, USA

mightymeals.com

- Built the React.js frontend, integrated payment gateways, optimised the checkout flow and developed order creation. Stack: React.js, Python/FastAPI, WordPress.

By Best — fashion and accessories eCommerce

bybest.shop

- Built responsive React.js product pages, improved product filtering and search, and integrated the cart and checkout with a Laravel backend.

Fields in Trust — UK charity for parks and green spaces

fieldsintrust.org

- Built the ASP.NET MVC website in C# with Entity Framework: dynamic content management, secure web forms and location-based search for protected fields across the UK.

EDUCATION

B.E. Computer Engineering — D.A. Degree Engineering & Technology (CGPA 8.3/10)
