TECHNICAL SKILLS

FRONTEND

React.js Next.js TypeScript

JavaScript (ES6+) Redux

Tailwind CSS HTML5 CSS3

BACKEND

Node.js Express.js REST APIs

Python FastAPI ASP.NET Core

DATABASE

PostgreSQL Microsoft SQL Server

MongoDB Entity Framework

DEVOPS & TOOLS

Git GitHub Docker AWS

CI/CD Linux

ADDITIONAL TECHNOLOGIES

Stripe, Authorize.net, ID.me, Google Maps Places API, ASP.NET MVC, C#, jQuery, Bootstrap, Jest

EDUCATION

Bachelor of Engineering in Computer Engineering

D.A. Degree Engineering & Technology
2020 - 2023 · CGPA 8.3/10.0

Diploma in Computer Engineering

D.A. Diploma Engineering & Technology
2016 - 2019 · CGPA 7.3/10.0

AWARDS & RECOGNITION

WOW Award — May 2023

ZealousWeb Technologies Pvt. Ltd.
Monthly company recognition

Employee of the Year Nominee — 2025

ZealousWeb Technologies Pvt. Ltd.

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience building production-grade web applications with React.js, TypeScript, Next.js, and Node.js. Develops backend services and REST APIs in Node.js/Express.js, Python/FastAPI, and ASP.NET Core, with third-party, payment, and authentication integrations. Owns technical architecture and delivery in close collaboration with clients and stakeholders.

PROFESSIONAL EXPERIENCE

Lead Software Engineer

Jul 2026 – Present

FlatFour Ventures · USA

- Own end-to-end delivery of full-stack web applications built with React.js, TypeScript, Next.js, and Node.js, from technical architecture through release.
- Design and build backend services and REST APIs, integrating third-party services, payment gateways, and authentication to deliver secure, scalable, and maintainable solutions.
- Lead and mentor engineers through code reviews and shared engineering standards, raising code quality and consistency across the codebase.
- Collaborate directly with clients and cross-functional stakeholders to define requirements, scope technical solutions, and keep delivery on schedule.

React.js TypeScript Next.js Node.js REST APIs Payment Integration Authentication

Web Developer

Apr 2022 – Jun 2026

ZealousWeb Technologies Pvt. Ltd. · Ahmedabad, India

- Engineered and maintained production-grade full-stack web applications using React.js, TypeScript, Next.js, and Node.js, with backend work in Python/FastAPI and ASP.NET Core across client projects.
- Led third-party integrations including Stripe and Authorize.net payment processing and ID.me identity verification, delivering secure checkout and user-verification flows for production applications.
- Built dynamic address forms with the Google Maps Places API and refined autofill logic, improving data accuracy and checkout UX.
- Strengthened frontend architecture by modularizing form components into reusable building blocks and adopting Redux for predictable state management.
- Optimized bundle size and implemented lazy loading to improve page-load performance.
- Collaborated with designers and backend engineers in Agile sprints to ship responsive, accessible, scalable web applications.

React.js TypeScript Next.js Node.js Redux Stripe Authorize.net ID.me Google Maps API

Trainee

Nov 2021 – Mar 2022

Aark Inosoft · Ahmedabad, India

- Built responsive, cross-browser client websites with HTML5, CSS3, JavaScript, and jQuery, adding interactive features to improve user engagement.
- Supported senior developers on ASP.NET Web Forms and ASP.NET MVC backends using C# and SQL Server, and contributed to QA testing and bug fixing.

HTML5 CSS3 JavaScript jQuery ASP.NET Web Forms ASP.NET MVC C# SQL Server

KEY PROJECTS

MightyMeals

mightymeals.com

Meal delivery platform for fresh, chef-prepared meals. Built the responsive React.js frontend, integrated secure payment gateways, optimized the checkout flow, and developed the order creation functionality.

React.js Python/FastAPI WordPress

By Best

bybest.shop

eCommerce platform for fashion and accessories. Built responsive React.js product pages, optimized product filtering and search, and integrated the dynamic cart and checkout with a Laravel backend.

React.js Laravel

Fields In Trust

fieldsintrust.org

UK charity protecting parks, playgrounds, and green spaces. Built the ASP.NET MVC website in C# with Entity Framework: dynamic content management, secure and maintainable web forms, and location-based search for protected fields across the UK.

ASP.NET MVC C# Entity Framework Razor Pages
